558 West 164th Street. Apt 5H New York, NY. 10032.

He has the appearance of not being from the East Coast US. Maybe LA, the West Coast.

Targeted Areas Of The Body (http://tibuster.weebly.com/case-overview/targeted-areas-of-the-body)

Targeted Areas Of The Body

Electronic harassment strong while laying on the bed to sleep and during the evening hours 5-7PM. Pain can also be felt in the room awake.

In the workplace mostly during the early morning hours while working overnights in the lobby and on the weekend like a Saturday. Also while arriving at work during the late night hours 11PM.

Some days there is no electronic harassment or it is very faint. Other days it picks up and becomes very strong in the bedroom and the workplace. The days alternate. The pain dissipates while away from room (rental room in Manhattan) and workplace (lobby desk).
